## BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established, that they are no longer matters of experiment, and its advantages are beyond dispute.

*The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father.* Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from *reproach* if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more improvident is he who refuses to insure his life? Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel"

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans are protected from the husband's creditors.

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

*There are many other advantageous uses of Life Insurance,* besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

*The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community.* It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A *systematic* adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

## SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner: for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

*An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank.* An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits: but it does more. What is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, *binds* himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say that in a majority of cases the money saved to deposit in a Life Institution, *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes a means of support when everything else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain:* and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat themselves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to learn lessons of mortality. 'Tis the burthen of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of $2,000, and for that purpose deposits annually $50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays $50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving $2,000 to his family *whenever* he dies, in six months or twenty years! Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question it will be necessary to explain briefly the

## DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

*Joint Stock* Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

*Mixed* Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

*Mutual* Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate *share* in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in *principle*, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No Mutual Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In Mutual Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A Mutual Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the Mixed companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the Stock companies, and only partially so with the Mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a Mutual company. He says: "Purely Mutual Life Insurance Companies have been proved by experience to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

## SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely Mutual Company, and has made three distributions of surplus funds (1848, 1853, and 1858,) in *cash*, amounting to OVER $500,000. It now has an invested fund of $1,750,000, to pay losses, and a surplus of $600,000; so that it could reinsure for $1,200,000, and divide $600,000.

The New England Mutual Life Insurance Company do not pay their dividends in scrip, but always in CASH. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited.* The cash distribution in 1858 amounted to $335,000.

Its *standing* and *economy* are unequaled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company FIRST in *standing*, i. e. in its ratio of value to liability, and FIRST in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent.! This is the *oldest* Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its directors are well known to community as men of integrity, sagacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

☞ The New England Mutual Life Insurance Company has deposited with the Comptroller of the State of New York, $100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late RUFUS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

## TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

*In this Company* a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

Insurance may be effected for one year, a term of years, or for life.

Annexed are the tables of premiums for insurance of $1,000 for one year, for seven years, and for life; also the amount in ten annual premiums, and in one payment.

## SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance, ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy upon fair terms*, if application is made for that purpose before it is forfeited.

*All over and above the actual cost* will be returned of the premiums paid.

*Now* is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!

BROWN'S

ESSENCE JAMAICA GINGER,

MANUFACTURED ONLY AT

FREDERICK BROWN'S DRUG AND CHEMICAL STORE,

N. E. Cor. Fifth & Chestnut Sts., Philadelphia.

Attention is called to this valuable remedy, which should be in every family, and for the Army and Navy it is indispensable, curing affections of the stomach and bowels, and is a certain preventive from the effects of bad water.

CAUTION.—To prevent this valuable Essence from being counterfeited, a new Steel Engraving, executed at great cost, will be found on the outside of the wrapper, in order to guard the purchaser against being imposed upon by worthless imitations.

BROWN'S ESSENCE OF JAMAICA GINGER.—We would call the attention of our readers to the advertisement of this valuable remedy, which, independent of the necessity of its being in every household. should be distributed among our brave volunteers. It is easily carried, and would be the means of saving life, as a teaspoonful in a little water restores a soldier who gives out from fatigue and exposure to the sun, relieves at once affections of the stomach and bowels, and as a Colonel of one of the regiments now on duty in Virginia says, "He would as soon go to the field without gunpowder. as without F. Brown's Essence of Jamaica Ginger."—*Philadelphia Inquirer.*

F. BROWN'S ESSENCE OF GINGER AND CHOLERA MIXTURE.—We cannot do the public greater service at this season, than to call their attention to the above valuable remedy, which should be in the hands of every family, while no person about to travel should leave the city without them. Every officer and soldier should have a bottle, as it immediately restores when overcome from fatigue or exposure to the sun, and is indispensable.—*Evening Bulletin.*

ALSO,

BROWN'S CHOLERA MIXTURE,

For the Prevention and Treatment of

CHOLERA AND DIARRHŒA,

PREPARED ONLY BY FREDERICK BROWN,

Northeast corner of FIFTH and CHESTNUT Streets, Philadelphia.

And sold by all respectable Druggists in the United States.

# STANDARD HOUSEHOLD REMEDIES.

# DR. D. JAYNE'S
# FAMILY MEDICINES

Are prepared with great care expressly for family use, and are so admirably calculated to preserve the health and remove disease, that no family should ever be without them.

THEY CONSIST OF

**JAYNE'S EXPECTORANT,** for Coughs, Consumption, Asthma, Bronchitis, and other Pulmonary Affections.

**JAYNE'S TONIC VERMIFUGE,** for Worms, Dyspepsia, Piles, General Debility, &c.

**JAYNE'S SPECIFIC FOR THE TAPE WORM.** It never fails.

**JAYNE'S CARMINATIVE BALSAM,** for Bowel and Summer Complaints, Colics, Cramps, Cholera, &c.

**JAYNE'S ALTERATIVE,** for Scrofula, Goitre, Cancers, Diseases of the Skin and Bones.

**JAYNE'S AGUE MIXTURE,** for the cure of Fever and Ague.

**JAYNE'S LINIMENT, or COUNTER IRRITANT,** for Sprains, Bruises.

**JAYNE'S SANATIVE PILLS,** for all Bilious Complaints and Diseases of the Liver; a valuable Alterative and Purgative Medicine.

**JAYNE'S HAIR TONIC,** for the Preservation, Beauty, Growth and Restoration of the Hair.

**JAYNE'S LIQUID HAIR DYE,** also, **AMERICAN HAIR DYE,** (in powder,) each of which will change the Hair from any other color to a beautiful Black.

These Medicines have now been before the public for thirty years, and during this long period the demand for them has been constantly increasing, and their reputation gradually spreading, until their great curative powers have become known and thoroughly appreciated in all quarters of the world. While, however, the Proprietor is fully persuaded that they will give very GENERAL, if not UNIVERSAL satisfaction, it is not pretended that they are "CURE-ALLS," nor that they are, in all cases and under all circumstances, absolutely infallible. Yet he can truly say, after thirty-six years' experience, in an extensive and diversified practice, and with a full knowledge of the medical qualities and effects of the component parts of each of the above-named articles, that there is no combination of medicines which have been so generally successful as these, in removing the various diseases for which they are severally recommended.

It should be borne in mind, too, that the popularity of these "Family Medicines" is not confined to the illiterate and credulous, but innumerable persons of intelligence and character, occupying the most prominent stations in society,—too honest to impose upon others, and too sagacious to be imposed upon themselves,—not only use, but speak of them in the highest terms of praise, for the uniformity of their success in subduing diseases.

THESE MEDICINES ARE PREPARED ONLY BY

**DR. D. JAYNE & SON,**
**242 Chestnut St., Philadelphia,**
*And may be had of Agents throughout the country.*

| Net Accumulation, January 1st, 1862, | $4,109,353 00 |
| Total Amount of Dividends paid to January 1, 1862, | 1,688,956 00 |
| Total Amount of Claims, by death, paid to January 1, 1862, | 2,265,589 00 |

This Company is purely Mutual; there are no stockholders to take any of the profits which rightfully belong to those who are insured for life.

It offers, as security, a large accumulated fund.

The business of the Company is confined exclusively to the insurance of lives.

It is economical in the management of its business.

It is prompt in the payment of losses.

It accommodates the insured, by allowing them to pay annually, semi-annually, or quarterly. Premiums on policies for life, if over $50 per annum, may be paid *one-half in cash* and *one-half in a note*, bearing interest at six per cent. per annum. The interest on premium notes is to be paid annually in cash.

Dividends are declared annually to all who have paid two Life premiums.

A dividend of 45 per cent. was declared on the first of January, 1862, and an additional *special dividend* of five per cent., payable in conformity with the present rule of the Company, and they have ordered the payment of the dividend of 1860 during the year 1862.

The dividends are paid to aid the insured in settling future premiums. Those who pay their premiums in cash, receive the dividends when redeemed in cash; and those who give notes, by a credit on the notes.

The affairs of the Company are periodically subjected to the strictest scrutiny.

This Company, being conducted by a Board of Directors owning Stock in the Company, has the advantage of the stock plan of management, with the mutual feature of sharing the profits of the business, without being liable to assessments. The triennial dividend of profits of this Company has resulted in a bonus or addition to the policy of more than fifty per cent. on the whole premium paid.

The dividends are paid in the life-time of the assured, thus aiding them to pay future premiums.

Premiums may be paid annually, semi-annually, or quarterly, when the policy is for life, and the annual premium amounts to $40 or over. From 40 to 50 per cent. may be paid by notes.

Persons insured may visit Europe in first-class vessels, without extra charge, at all seasons of the year.

### NEW PAPER PATTERN AND DRESS-MAKING EMPORIUM.

**MRS. S. J. HUTTON,**

LATE OF MME. DEMOREST'S.

Has removed from 1029 Chestnut Street to the N. E. Corner of Eleventh and Sansom, where she will keep constantly on hand, a splendid assortment of

**PARIS, LONDON AND NEW YORK FASHIONS.**

Having made an arrangement with the principal Houses in Europe to receive, by every steamer, the latest styles of WRISTS, SLEEVES, MANTLES, CLOAKS, WRAPPERS, APRONS, OVER-DRESSES FOR CHILDREN, she is prepared to sell *Wholesale and Retail* on most reasonable terms. Persons wishing to become Branches should apply immediately at this establishment.

P. S.—Subscriptions received for Mme. Demorest's Quarterly Mirror of Fashion, Le Bon Ton, Moniteur, and all the principal fashion books.

Mrs. H. would call the especial attention of the ladies and Dressmakers to her new MAGIC DRESS CHART. Every lady, her own dressmaker, taught in one easy lesson of half an hour, so simple that a child of ten years old could understand.

Mrs. H.'s practical knowledge as a dressmaker for the last twelve years, has enabled her to illustrate to the ladies this simplified system of dress-cutting for the small amount of $2.50, to which she calls the attention of the dress-makers and ladies of Philadelphia.

P. S.—Mme. Demorest's celebrated PRIZE MEDAL SKIRTS, warranted not to slip on the spring or get out of order, kept constantly on hand.

MRS. S. J. HUTTON's FASHIONABLE MILLINERY in connection with her Patterns and Dressmaking. A large assortment kept constantly on hand and made to order.

Mrs. H. intends to make this a Fashion Emporium of this city, where ladies can have every garment cut, basted, or made at the shortest notice.
